definitive full day overview

I start photographing the Bridal party getting ready at the location of your choice. This starts 2 hours prior to the wedding ceremony. I capture beautiful detail images of the flowers, jewellery, wedding gown, shoes etc. I photograph portraits of the Bridal Party at this time, giving you more time with your guests at the reception. This is a fantastic time to capture candid images of the Bride, her closest friends and family. From here a move to the ceremony location - capturing guests arriving and mingling at your venue. Photographing the Groom and his groomsmen. Following up to the arrival of the Bride at the ceremony. Full Ceremony coverage. I am discreet at this time; I believe that your guests want to be watching the Bridal couple, more than the back of the photographer. In saying this I get fabulous imagery without disrupting the flow of the service. At the conclusion for your ceremony, people will come to congratulate you both, a great time to capture candid moments of you and your guests. Directly after this time I go on to photograph a group shot and specific family portraits. This ensures everyone can relax and enjoy the reception as soon as possible. This can take 20-40 mins depending on your group numbers. From here the Bridal Party proceed are photographed at selected locations. This will take approx. 1 1/2 hours, depending the distance traveled to reach specific locations. On the return to your reception I photograph details such as - table settings, the wedding cake, decorations and guests enjoying the wedding atmosphere. Finishing your day with a mock cutting of the Wedding Cake. At this point I leave you both to enjoy the warmth of friends and family - and the celebrations of your reception.

This is a rough guide to your wedding day. Feel free to discuss your ideas with me.
